RUST-OLEUM®

MILK PAINT FINISH

— FOR DÉCOR & FURNITURE —

HIGHLAND
BLUE

matt finish with
brushed effect

bonds easily to
most surfaces

946 mL

Rust-Oleum® Milk Paint Finish creates a unique washed effect, perfect for furniture and décor pieces. This one-step paint, water-based finish is easy to use and has superior adhesion. Multiple coats can be applied to achieve desired effect. For interior use only.

READ ALL DIRECTIONS BEFORE BEGINNING PROJECT

Painting Conditions: Use when temperature is between 10°C and 32°C and humidity is below 85% to ensure proper drying. Do not apply paint on surfaces which are exposed to high humidity.

Preparation: Remove all dirt, grease, oil, salt and chemical contaminants by washing the surface with soap and water and let dry. Remove loose paint and rust with a wire brush or sandpaper. Lightly sand glossy surfaces. Remove any wax by lightly wiping the surface with mineral spirits.

Priming: Priming is not required for most surfaces. For superior coverage, a Rust-Oleum® primer can be used for surfaces such as bare wood and treated wood.

Painting: Stir well before use. A high quality synthetic brush is recommended for application. Apply a light coat on the surface, brushing in a "V" pattern to achieve a washed look. If applying to wood, brush in the direction of the wood grain. Note: Paint finish will have a subtle texture. For full coverage, apply multiple coats. For added protection, use Rust-Oleum® Chalked Paint Matt Clear Protective Top Coat.

Dry & Recoat Times: Based on 25°C and 50% relative humidity. Allow more time at cooler temperatures. Dries to the touch 30-60 minutes and fully dry in 24 hours. Can be recoated after 1 hour.

Clean-up: Clean brush and other application tools immediately with soap and water.

Coverage: Up to 9m² depending on surface texture, porosity, and application method.

For further application instructions refer to the **Technical Data Sheet** available at www.rustoleum.com.au or www.rustoleum.co.nz or www.rustoleum.co.za
