RUST-OLEUM®

SHIMMER FINISH GOLD GLITTER

GREAT FOR HOLIDAY,
HOME DÉCOR & MORE

MULTI-SURFACE USE

INDOOR USE ONLY

291g NET

Rust-Oleum® Glitter provides an intense sparkling finish for any craft or decorative project. Glitter provides a full coverage of radiant shimmer for many surfaces including: wood, metal, wicker, glass, ceramic, pottery, Styrofoam®, paper, plastic and more. For added protection, top coat with the Rust-Oleum® Glitter Clear Sealer.

READ ALL DIRECTIONS FIRST BEFORE BEGINNING PROJECT.

Painting Conditions: Use outdoors or in a well-ventilated area such as an open garage. Use when temperature is between 10°C and 32°C and humidity is below 80% to ensure proper drying. Avoid spraying in very windy, dusty conditions.

Preparation: Remove loose paint and rust with wire brush or sandpaper. Lightly sand glossy surfaces. Clean with soap and water, rinse and let dry. Cover surrounding area to protect from spray mist.

Priming: Use of a Rust-Oleum® primer provides superior adhesion and hiding and is especially recommended for bare wood and metal.

Painting: Tip: For best results, use a similar base coat colour to enhance the shimmering coverage prior to applying Rust-Oleum® Glitter. Shake can vigorously for one minute after mixing ball begins to rattle. Shake often during use. If mixing ball fails to rattle, DO NOT STRIKE CAN. Contact Rust-Oleum®. Hold can upright 30-35cm from surface and spray in a steady back-and-forth motion, slightly overlapping each stroke. Keep the can the same distance from the surface. Keep the can in motion while spraying. Apply 2 or more light coats a few minutes apart.

Dry & Recoat Times: based on 21°C – 50% relative humidity. Allow more time at cooler temperatures. May recoat at anytime. Dries to the touch in 20 minutes and to handle in 1 hour. Fully dry in 24 hours.

Clean-up: When finished spraying, clear spray valve by turning can upside down and pushing spray button for 5 seconds. Clean up wet paint with Xylol or mineral turps. Throw away empty can in trash pickup. Do not burn or place in home trash compactor.

Clogging: If valve clogs, twist and pull off spray tip and rinse it in a solvent such as mineral turps. Do not stick pin or other object into the stem.

*Styrofoam® is a trademark of the Dow Chemical company.
